ABOUT ME

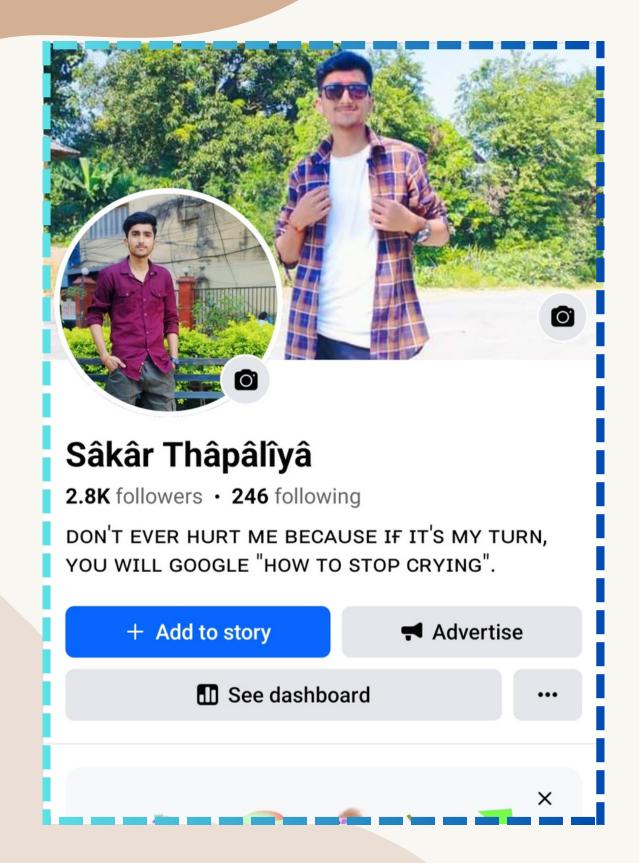

Hi there! I'm Sakar Thapaliya, a web developer with a passion for turning ideas into digital realities. With 4 years of experience in the field, I thrive on the creative process of designing and coding websites that captivate audiences and drive results.

Embarking on my journey in web development coincided with my enrollment in computer engineering during my ninth-grade schooling. Since then, I've honed my skills in programming and web developing, constantly staying abreast of the latest trends and technologies to deliver cutting-edge solutions.

What fuels my work is not just the thrill of coding, but the satisfaction of seeing my clients' visions come to life. I believe in the power of collaboration and communication, working closely with clients to understand their needs and exceed their expectations.

When I'm not immersed in lines of code, you can find me playing football, volleyball and exploring nature and different places. I believe in maintaining a healthy work-life balance to stay refreshed and inspired. I'm excited about the opportunity to work together and bring your digital dreams to fruition. Let's connect and create something amazing!

SAKAR THAPALIYA

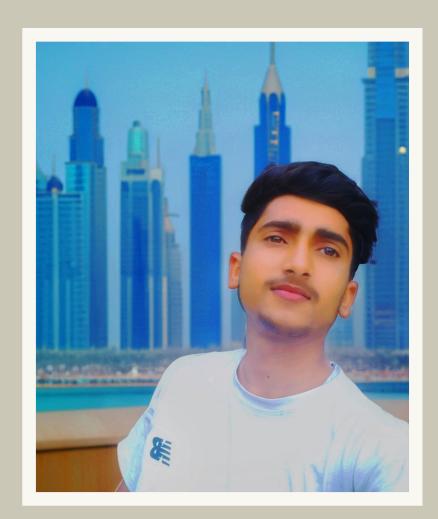

Here is my Facebook page! 🗯 With a community of over 2.8K followers in Facebook and over 4.5k followers including different platform and growing, I'm thrilled to share my journey as a web developer with you all. Join me for exclusive insights into the world of web development, behind-the-scenes looks at my latest projects, and valuable tips to enhance your own digital presence. VISION

To innovate, inspire, and empower through exceptional web development solutions, enriching online experiences and fostering digital growth for businesses worldwide.

MISSION

Our mission is to leverage cutting-edge technologies, creative design, and robust development strategies to deliver tailor-made web solutions that exceed client expectations. With a commitment to quality, collaboration, and continuous improvement, we strive to transform ideas into engaging digital realities, driving success and sustainable growth for our clients' ventures.

EDUCATION BACKGROUND

2010-2020

2021-2023

Primary Education

Secondary Education

During my primary education at Shree Secondary School Dudhiawa, Rautahat, Nepal, I laid the foundation for my academic journey. It was here that I developed a keen interest in computers and technology. Through engaging classes and extracurricular activities, I began to explore the vast world of computer engineering. This period provided me with fundamental knowledge and skills that would later shape my path in web development.

Continuing my education at Shree Secondary School for my secondary studies proved to be a pivotal decision. Here, I delved deeper into the realm of computer engineering, further honing my skills and knowledge. The supportive environment and dedicated educators nurtured my passion for web development. By the time I completed my secondary education, I had gained a solid understanding of programming languages, algorithms, and web development concepts, laying a strong foundation for my future endeavors in the field.

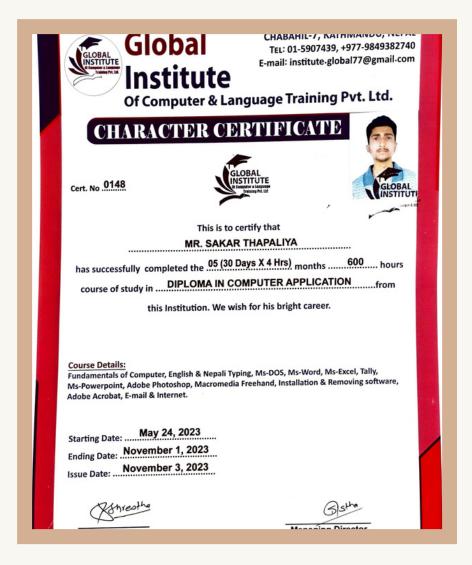

WORK EXPERIENCE/ TRAINING

As a student, I embarked on a journey into the professional world through freelancing, leveraging my skills in web development and programming. Despite the demands of my academic pursuits, I eagerly sought opportunities to apply my knowledge in real-world projects, gaining invaluable experience along the way.
